MANUFACTURER'S STATEMENT

Applies to: WKT type corrugated pipes, made of polyethylene.

We declare that WKT type corrugated pipes are resistant to UV radiation under moderate climate conditions, under operating conditions consistent with their intended use and the general principles of installation and operation of corrugated pipes.

The product has a 2-year warranty in accordance with applicable warranty regulations.

We would like to inform you that in case of very high intensity of exposure to sunlight, WKT tubing may be subject to color discoloration and this is not considered a defect.
